PAINTED WHITE OAK

Due to the nature of White Oak, painted cabinets can have open face cracking on the stiles and rails. You may also notice some wood grain telegraph through the paint finish. Shrinkage and expansion may also occur in the door panel of your cabinetry. Wood pieces expand and contract at different rates with changes in humidity. Over time, there may be a slight color change in this finish due to exposure to natural and artificial light.

Listed above are natural occurrences in the wood and it is not considered a warranty issue with Marquis Cabinets.

I have read the above information, and I acknowledge that Marquis Cabinets does not consider the natural wood movement and characteristics of the white oak painted finish I have chosen to be a warranty issue.
