Reveals at the top of walls and talls will be 1 1/4" and the bottom will be 1/4". Reveals at the top and bottom of bases, office, and vanities will be 1/4".

Wide stile or rail overlay will change reveal.

Blind base - door overlaps blind side 1/2".

Corner cabinet - 1" reveal on frame.

WOOD DESCRIPTIONS

BEECH

Beech may vary in color tones from light tan to reddish brown, creating some color variation when finished. Beech will also have some pin knots and sap streaks. Variations in color and graining of Beech are commonplace and Koch Cabinets may not be responsible for color or grain variations between a sample block and the complete order. Door Styles made with solid wood Beech panels are affected by humidity levels. Solid wood Beech panels will expand when exposed to high moisture areas and will shrink in dry climates. This will happen in products with a good paint or varnish finish. We suggest keeping humidity levels at 35-45% to help avoid panel movement. Doors made with engineered panels will have much less movement and we suggest using them in areas with high humidity or low humidity levels.

BIRCH

Birch is a smooth, even grained hardwood that is predominantly off-white with some red and brown variation giving it a calico appearance. Birch cabinets with a wiping stain will not be consistent in color. The ends of the stiles and the cross grain profile in the raised panel will be much darker than the rest of the door. In addition, the face frame, doors, and drawer fronts can vary in color. Birch will also have some pin knots. These are not considered a defect but desired by those wanting a "rustic" look.

CHERRY

Cherry Hardwood will darken in a short period of time. When ordering your door, understand it will be lighter in color than a sample block. Depending on the age of this color block will determine how much lighter. In addition, this sample does not display a true picture of the characteristics of the wood but only the basic color tone. Cherry has wide variations in grain and can contain some white areas that, even when stained, will be lighter than the basic red color. Any replacement parts will not match an existing kitchen but will gradually blend in over time. Pits and mineral streaks are a character of Cherry.

HICKORY

Hickory is sought after by those desiring unpredictable grain patterns and vast differences in color. The colors in Hickory can range from white to reddish or dark brown and will appear randomly giving it a calico appearance. Darker stains will tone these variations somewhat. Hickory is extremely hard with a high shock resistance. Mineral streaks appear naturally and are not considered defects.

MAPLE

Maple is a smooth, even grained hardwood that is predominantly off-white in color and more uniform than other hardwoods. Small mineral streaks appear naturally and are not considered defects. Maple doors with a wiping stain may not be consistent in color and may have some blotching. The ends of the stiles and the cross grain profile in the raised panel will be much darker than the rest of the door. In addition doors can vary in color. This is not considered a defect but desired by those wanting a “rustic” look.

PAINT GRADE-HD

Paint Grade-HD doors, 5 PC drawer fronts and slab drawer fronts are made from high density fiberboard. High density fiberboard provides a smooth finish and more stable joinery for paint.
Paint Grade-HD mullion doors, overlay frames and accessories may contain paint grade solid wood, high density fiberboard or a combination of both.

PAINT GRADE-MAPLE

Paint Grade-Maple doors and 5 PC drawer fronts will have Maple stiles and rails with a HDF panel. Slab drawer fronts will be solid Maple.
Paint Grade-Maple mullion doors, overlay frames and accessories may contain paint grade solid wood, high density fiberboard or a combination of both.

WHITE OAK

Sapwood is narrow, light-colored, nearly white and the heartwood is light to dark brown. Variations regarding grain patterns and color within the components of a complete order are considered a normal occurrence. The color and grain variations add to the beauty of Oak wood. Marquis Cabinets will not be responsible for character marks or color variations between sample blocks and the complete order.

RIFT WHITE OAK

Rift White Oak is special cut oak wood that produces a straight grain appearance. There may be individual features and character marks that will appear that are natural to the wood grain. Marquis Cabinets will not be responsible for character marks or color variations between sample blocks and the complete order.

WOOD DESCRIPTION

** RUSTIC WOODS

Rustic woods may contain natural sound defects and possess all inherent characteristics of the species. Minimal to no color or grain matching is done to preserve strong character. Some of the characteristics that may be represented are mineral streaks, pecks, burls, natural color variations, grain variations, and naturally occurring tight, open, and cracked knots. Open knots will be structurally “sound” and will not be seen through. The amount, size, and placement of natural characteristics will vary, and the consistency (or lack of) is not considered cause for replacement. Rustic woods may have less knots with more color variations and streaking. Paints are not recommended as they may reduce the appearance of the rustic characteristics. Dark stains may also reduce the appearance of the rustic character.

We do not guarantee that each piece will have rustic characteristics.

Due to the variations in wood, some panels, moldings, skins and other components may be clear.

** KNOTTY ALDER

Knotty Alder is a soft wood, known for its even texture. Its color can range from light red to reddish brown. Knotty Alder dents easily and having softwood and hardwood characteristics, will absorb excess stain creating dark areas but also absorb minimal stain creating light areas. This variance is not considered a defect. Knotty Alder is recommended when natural color and grain variations are desired, or acceptable, such as when used with medium to dark stained finishes. General characteristics of Knotty Alder are: generally pale pinkish-brown to reddish peach in color with a slight grain pattern.

** RUSTIC BEECH

Rustic Beech will vary in color tones from light tan to reddish brown, creating some color variation when finished. Beech will also have some pin knots and sap streaks. Variations in color and graining of Rustic Beech are commonplace and Koch Cabinets will not be responsible for color or grain variations between a sample block and the complete order.

** RUSTIC BIRCH

Rustic Birch is a smooth, even grained hardwood that is predominantly off-white with some red and brown variation giving it a calico appearance. Rustic Birch cabinets with a wiping stain will not be consistent in color. The ends of the stiles and the cross grain profile in the raised panel will be much darker than the rest of the door. In addition, the face frame, doors, and drawer fronts can be different colors. This is not considered a defect but desired by those wanting a "rustic" look.

** RUSTIC CHERRY

Rustic Cherry Hardwood will darken in a short period of time. When ordering your door, understand it will be lighter in color than a sample block. Depending on the age of this color block will determine how much lighter. In addition, this sample does not display a true picture of the characteristics of the wood but only the basic color tone. Rustic Cherry has wide variations in grain and can contain some white areas that, even when stained, will be lighter than the basic red color. Any replacement parts will not match an existing kitchen but will gradually blend in over time. Pits and mineral streaks are a character of Rustic Cherry.

** RUSTIC HICKORY

Rustic Hickory is sought after by those desiring unpredictable grain patterns and vast differences in color. The colors in Rustic Hickory can range from white to reddish or dark brown and will appear randomly giving it a calico appearance. Darker stains will tone these variations somewhat. Rustic Hickory is extremely hard with a high shock resistance. Mineral streaks appear naturally and are not considered defects.

NOTES OR ADDITIONS

POLICY AND PROCEDURES

MARQUIS CABINETS, A DIVISION OF KOCH AND CO., INC. CABINET WARRANTY

LIMITED LIFETIME WARRANTY

Koch & Co., Inc. warrants to the original consumer purchaser, as long as they own their home, that the cabinet box, shelves, and drawer box will be free from defects in materials and workmanship under normal use. This warranty is not transferable. No representative of Koch & Co., Inc. has the authority to modify this warranty.

Warranty Limitations

This limited Lifetime Warranty does not apply to:

1. Products that are installed in cabinets that are not manufactured by Koch & Co., Inc. Example: Rev-A-Shelf items, Century, Blum, Omega/Broan and Stanisci ventilation accessories, etc.
2. Cabinetry installed outdoors.
3. Cabinets that have been improperly installed, cleaned, or maintained.
4. Cabinets not installed in the United States.
5. Defects caused by misuse, abuse, negligence, alterations, environmental conditions, improper installation, normal wear and tear, commercial use, or improper storage and handling.
6. Labor for replacement or removal of cabinets.
7. Classic and Imperial cabinets should not be mixed with Express cabinets in a project. Doing so will void any warranty on color issues.
8. Against expansion or contraction occurring as a result of humidity levels being too high or too low. We recommend 35% to 45% relative humidity levels in your home. This warranty will be void if cabinets are stored or installed in environments that do not have properly controlled humidity levels.
9. Damage claims on cabinets stored for longer than 90 days are subject to review by Koch management due to environmental exposure and additional handling issues. Some conditions could void this warranty.
10. Warp: Koch & Co., Inc. has an allowance of 3/16" on any door or drawer front under 24" wide x 45" tall. Any cabinet whose warpage exceeds 3/16" and can not be corrected by hinge adjustment will be replaced by Koch & Co., Inc. after it has been acclimated for 1 year. If doors are removed during installation pay close attention that they are reinstalled on the same cabinet.
11. Any door over 42" tall, made as one panel (per customer request) is excluded from this warranty.
12. Finish issues on unfinished cabinets.
13. Unfinished cabinets that are not finished within two weeks of delivery date.

Warranty Disclaimers

1. Wood characteristics that are inherently associated with a wood species. Each wood specie exhibits its own distinctive pattern and characteristics which adds to its natural beauty. Grain variances, mineral streaks, worm holes and knots are not considered defects.
   There is not a minimum or maximum amount of characteristics and variances are not considered defects.
2. Color variations. This warranty does not cover the natural aging and darkening of the wood color, nor does it apply to the inherent growth characteristics of the wood. As with other natural materials, wood is affected by environmental factors such as natural and artificial lighting. Darkening or mellowing of the wood can be expected and is a natural process of wood.
3. From time to time, we will change design, specifications, and materials, as conditions require and improvements are developed,but we have no obligation to incorporate such changes in products we previously manufactured.

Warranty Performance

Koch & Co., Inc. may elect to repair or replace any Marquis Cabinet product covered by our warranty. Should defects in material or workmanship exist during this warranty, Koch & Co., Inc. will elect at its discretion to either repair or replace the defective material or component, excluding labor costs. This warranty covers only parts and materials supplied by Koch & Co., Inc., and does not cover costs for removal or installation of counter tops, plumbing fixtures, appliances or related materials, or labor costs. Natural and environmental factors will affect cabinet products over time: therefore, Koch & Co., Inc. cannot be responsible for replacement products that may not exactly color-match installed product.

Some states do not allow exclusions or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply. This warranty gives you specific legal rights, and you may also have other rights. This warranty is in lieu of all other warranties expressed or implied.

KOCH POLICY AND PROCEDURES

ORDERS: Please send orders via Cab Connect. Be sure to include oven cutouts and specs on special cabinets. Drawings of special cabinets and oven cabinets will be e-mailed with confirmations for your approval. Please approve and send back (orders@kochcabinet.com) ASAP to avoid delays in your order. We will not continue processing until approvals are received.

Orders received after 2:00 pm will be logged in the next business day. We do not accept orders over the phone.

CONFIRMATION: You will receive a typed confirmation of your order within 24 - 48 hours. Please look these over carefully and let us know of any changes or corrections. Please send changes to orders@kochcabinet.com. **No changes are taken over the phone.**
If you do not receive a confirmation within 24 to 48 hours, please call and make sure that we received your e-mail. We have no way of knowing if we did not receive an e-mail you sent, if it did not transmit properly.

CHANGES ON ORDERS: Changes can be made within 24 hours from the time you receive confirmation. Changes are only accepted by emailing orders@kochcabinet.com. After 24 hours, no changes are allowed. **No changes are allowed on rush orders, odds orders, or loose door orders.**

SHIP LOG: A ship log will be emailed to you on a weekly basis. This log will give you an estimated ship date on cabinet orders that we have received.

SHIPPING: Any questions about shipping, truck schedules, etc. need to be directed to the shipping department at 866-739-5624.

RUSH POLICY AND JOB COMPLETION EXCEPTIONS:
1. Rush Orders and Job Completions cannot be combined in any way to order cabinets for the same job.
2. Having multiples of accessories, and/or items such as end panels, wood tops, floating shelves, etc. will likely disqualify orders from Rush or Job Completion status.
3. Classic Rush or Job Completion orders used to complete any orders of the Express Series will be reviewed. If they contain custom or large quantities of accessories, the order may be delayed.

RUSH POLICY: Rush orders will have a $50 per box charge. There is a limit of 3 cabinets per rush order. **Orders over 3 boxes WILL NOT be considered for our rush program.** Custom cabinets, finished interiors, or angled cabinets will not be rushed. Not available on warranty or damaged cabinets.

Rush orders will be ready to ship in approximately ten working days and will be shipped on the first available truck. Shipping date will depend on your truck schedule. If you decide to ship FED-EX or LTL those charges will apply. These charges can vary in price, but will exceed $125 depending on location of delivery.

No changes are allowed on rush orders after they have been confirmed. Work is started on the order as soon as it has been confirmed so that we can deliver it to you on time. Once the work has started it can not be stopped.

JOB COMPLETION POLICY: Job Completion orders will have a $35 per box charge.There is a limit of 5 cabinets per job completion order. Any order over five boxes WILL NOT be considered for our job completion program. Multiple orders of 5 cabinets for one job will not be accepted. Custom cabinets, or angled cabinets will not be eligible for job completion. This does not apply to any warranty or damaged cabinets.

Job Completion orders will be ready to ship in approximately 15 working days. They will be shipped on the first available truck. Shipping date will depend on your truck schedule. If you decide to ship FED-EX or LTL those charges will apply. These charges can vary in price, but will exceed $125 depending on location of delivery.

No changes are allowed on job completion orders after they have been confirmed. Work is started on the order as soon as it has been confirmed so that we can deliver it to you on time. Once the work has started it can not be stopped.

IMPORTANT NOTE: Parts known as 'odds' and doors are not eligible for our Rush programs, nor JCO program. There are limitations depending on availability as we do not stock any completed materials. The good news is that many parts and doors do not take the full lead time. Be sure to separate them to a parts order.

If a job completion or a rush cabinet is needed, please contact Laurie Osterhaus at 785-369-3063.

DEALER RESPONSIBILITY

CAREFULLY INSPECT ALL CABINETS AND PRODUCTS UPON DELIVERY AND HAVE PERSONNEL THERE TO UNLOAD THE TRUCK. ANY DAMAGES OR SHORTAGES MUST BE NOTED ON THE SIGNED DELIVERY RECEIPT. DAMAGES OR SHORTAGES NOT WRITTEN ON THE SIGNED DELIVERY RECEIPT MAY NOT BE REPLACED. IF AN ITEM IS TO BE REPLACED THE DEALER MUST SEND IN THE WARRANTY FORM AND PICTURES OF THE DAMAGE.

DEALER WILL DO TOUCH-UP OF ANY MINOR DAMAGE THAT MIGHT HAVE OCCURRED IN SHIPPING AS WELL AS FINAL DOOR AND DRAWER ADJUSTMENTS. LABOR EXPENSES ARE THE RESPONSIBILITY OF THE DEALER IN THE EXECUTION OF WARRANTY ITEMS.

IF THERE IS AN ISSUE AFTER THE DEALER HAS DELIVERED CABINETS TO A JOBSITE, THE DEALER (OR A DEALER REPRESENTATIVE) WILL VISIT THE JOBSITE. THEY WILL MEET WITH THE CUSTOMER TO DETERMINE A SOLUTION THAT WILL SATISFY THE CUSTOMER. IF A PRODUCT NEEDS TO BE SERVICED ON THE JOBSITE, THE DEALER (OR A REPRESENTATIVE OF THE DEALER) MUST BE PRESENT WHEN THE WORK IS STARTED SO THAT EVERYONE HAS THE SAME UNDERSTANDING OF WHAT NEEDS TO BE DONE.

WHEN THE WORK IS COMPLETED A REPRESENTITIVE FROM THE DEALER MUST BE PRESENT TO INSURE THAT THE WORK PERFORMED HAS MET THE CUSTOMERS SATISFACTION.

WARRANTY AUTHORIZATION

WARRANTY REPORTS MUST BE SUBMITTED THROUGH CAB CONNECT.

KOCH & COMPANY RESERVES THE RIGHT TO APPROVE FIELD REPAIR. BEFORE REPAIR IS STARTED YOU MUST RECEIVE ADVANCED AUTHORIZATION FROM KOCH & COMPANY IF COMPENSATION IS EXPECTED.

IT IS IMPORTANT TO INCLUDE A PICTURE OF THE DAMAGE. THE PICTURE CAN BE SUBMITTED IN CAB CONNECT IF YOU SUBMIT YOUR WARRANTY REPORT THERE.

WARRANTY REPORTS MUST BE SUBMITTED THROUGH CAB CONNECT.

CABINETS OR PARTS THAT ARE DEFECTIVE WILL BE REPLACED ON A RUSH BASIS. KOCH & COMPANY RESERVES THE RIGHT TO ASK FOR THE RETURN OF DEFECTIVE ITEMS.

SHIPPING

ALL JOB SITE DELIVERIES MUST BE PRE-APPROVED, IN WRITING BY SHIPPING DEPARTMENT

KOCH AND COMPANY REQUIRES DEALERS TO HAVE A WAREHOUSE OR A DELIVERY SERVICE THAT WE CAN DELIVER TO.

SHIPPING DEPARTMENT PHONE: 866-739-5624

KOCH & COMPANY WILL NOT DELIVER TO ANY LOCATION THAT DOES NOT HAVE A DEALER (OR AN AUTHORIZED REPRESENTATIVE OF THE DEALER) TO INSPECT AND SIGN FOR CABINETS

DEALER LOCATION DELIVERY IS A SERVICE THAT REQUIRES DEALERS TO BE RESPONSIBLE FOR THE FOLLOWING:

1. DEALER IS TO PROVIDE THE ASSISTANCE OF AT LEAST TWO PEOPLE TO UNLOAD THE TRUCK.
2. A REPRESENTITIVE OF THE DEALER MUST INSPECT THE CABINETS AS THEY ARE UNLOADED AND SIGN THE PACKING SLIP. ANY DAMAGE OR MISSING ITEMS MUST BE NOTED ON THE PACKING SLIP.
3. MAKING SURE THE DETAILED MAP SENT HAS A ROUTE THAT IS ACCESSABLE FOR THE TRUCK. THIS INCLUDES MAKING SURE OF BRIDGE CLEARANCE, WEIGHT RESTRICTIONS FOR BRIDGES OR ROADS, AND THAT THERE IS NOT ROAD CONSTRUCTION THAT WILL HINDER THE DELIVERY OF CABINETS.

IF ANY CONDITION, AT THE DISCRETION OF THE DRIVER, IS UNSAFE AND THE CABINETS CAN NOT BE DELIVERED, THEY WILL BE RETURNED TO THE FACTORY. DOUBLE FREIGHT CHARGES WILL BE APPLIED AND THE SCHEDULED RE-SHIP DATE WILL BE BASED ON THE TRUCK SPACE AVAILABLE.

THERE WILL BE A MINIMUM $200 RE-ROUTING CHARGE FOR ALL ORDERS WHICH HAVE THIER DESTINATION CHANGED BY THE DEALER AFTER THE TRUCK IS LOADED OR IN TRANSIT.

THERE WILL BE A MINIMUM CHARGE OF $200 IF THE TRUCK HAS TO SIT FOR MORE THAN AN HOUR PAST THE SCHEDULED DELIVERY TIME WITHOUT SOMEONE STARTING TO UNLOAD IT.

KOCH POLICY AND PROCEDURES

INTERIORS: The interiors of the Marquis Cabinets are surfaced with a Maple grained print that resists most stains, scuffs, and mars.

CLEANING: Koch hardwood exteriors have a high quality finish on the wood that brings out its full beauty**.** We recommend cleaning the interior and exterior of your cabinets once a month with a clean damp sponge or cloth. If a spill occurs, it is important to clean up the spill and dry the surface right away. A spill left unattended will soak through the Maple print and cause damage. We do not recommend using paper towels because of their abrasiveness. To remove food residue or grease, use clean suds with a mild soap and water mixture. Do not use cleaners that have any abrasive additive, bleach or ammonia. These cleaners will cause damage to your cabinet finish. Dishcloths used for other cleaning should never be used as they could contain remnants of harsh chemicals or grease. Following cleaning, wipe all excess moisture off the cabinet fronts and door backs.

CAUTION: The most common form of damage done to cabinetry during normal maintenance is over scrubbing of the finishes, especially the edge profiles.

Excess moisture can damage any cabinet finish. Areas near the sink, dishwasher, range, oven, and baseboards are the most susceptible. Keep these areas dry.

Marquis Cabinets have a high quality varnish finish and waxing is not necessary. Furniture polish may be used if waxing is preferred. Make sure to wipe off any excess polish to avoid build-up.

COLOR VARIANCE

Colors of all products change as they age. Various wood species will react in different ways depending on their exposure to the sun as well as the environment they are located in. For instance Cherry darkens with age and becomes more red, while White, and Ivory will have a tendency to acquire a slightly more amber coloring. Colored paints and clears may become slightly dull. We use high quality coatings and woods to diminish these reactions and proper care and conditions in the home will also be beneficial. If replacement parts or additional cabinetry is needed, more than a year after original purchase, a sample stain block from the original job should be sent in. It will NEVER be possible to perfectly match new cherry with old.

STAIN BLOCK AND SAMPLE DOOR EXPIRATION

A sample block will not show the full range of color and grain variations. We recommend you view a door sample or a full cabinet display before making your final selection. Marquis Cabinets will not replace or refund cabinets because of variations in color or wood grain from a sample block. All stain blocks and sample doors have a date on them. It is our recommendation that they be replaced when that date is more than 4 years old. Because of the fact that Cherry darkens at a much quicker rate we recommend it be replaced after 6 months.

FURNITURE FINISH

All finishes are glossier when freshly finished. The gloss level will tone down after approximately 6 months, depending on the environmental exposure.

CABINET DOOR BACKS

Door backs will not be finished to the same level of artistic detail as the front. They will have the same blending color and durability as the front of the door. Please have door samples for your customers to view.

STACKED CABINETS

When stacking two cabinets together we want you to be aware they may not be exactly the same width, and that the two rails that join them together might not be a perfect fit. When working with wood products you can expect variances.
The ideal options for having stacked cabinets are:

1. We are a semi-custom builder, therefore we can take two cabinets and build them in one cabinet. This will cost more than two separate cabinets but will eliminate any differences between the two cabinets.
2. We have a section in the price book that has a complete line of double sectioned cabinets.

Between these two options, every cabinet need should be covered. If two separate cabinets are used for a "stacking" setup and if there are any issues with the fit, it will not be considered a defect and will not be reason for replacement.

KOCH POLICY AND PROCEDURES

Effects of Moisture in Cabinets

Any solid wood or wood components will expand or contract with changing moisture and climate conditions. All wood is hygroscopic, meaning that when exposed to air, it will release or pick up moisture until it is in equilibrium with the humidity and temperature of the climate.

Humid Climates

Wood products located in humid climates are especially susceptible to expansion. As humidity levels increase, wood products will expand due to extra moisture in the air.

Dry Climates

In low humidity conditions, wood will release moisture and shrink or contract in size. In a dry climate, (or in a home that does not have a humidifier in the winter months) wood will shrink, exposing gaps at the joints where wood is trying to contract. This may result in the appearance of an unfinished line along the center panel. Koch does not consider this a defect and will not replace doors due to this situation.

As wood expands or contracts, due to moisture content, it does not shrink or swell equally in all directions. Please note that just because wood is finished with a stain and topcoat, it is not immune to moisture. Cabinets will still take in moisture through contact with liquid or absorption from the air.

Seasonal temperatures and humidity changes (or situations such as higher than normal rain falls), can increase the calls dealers receive about the effects of moisture in cabinets. Teaching homeowners to monitor and control the levels of humidity can greatly reduce the occurrence of moisture related problems.

Measures that can be taken to Prevent Humidity Problems

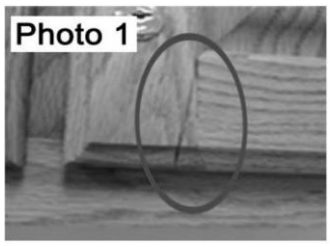
Air conditioning, dehumidifiers, and humidifiers can help maintain satisfactory levels of moisture in a home. Using a hygrometer will make it easy to check the humidity level; they can be purchased at a hardware store. We recommend a range between 35% and 45% humidity.

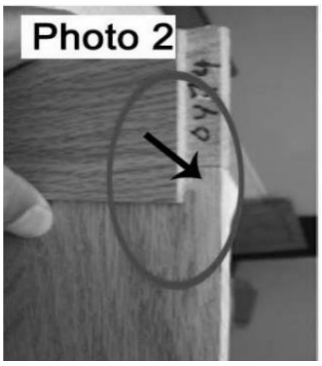
*During storage be aware that an acceptable level of moisture must be maintained, and try to keep the room temperature between 60 and 90 degrees. When new cabinetry has been stored they should be allowed to stand, in the home where they will be installed, for a period of time to acclimate to the surrounding environment.

*Density of wood affects how much, or how little, wood expands or contracts. Some door styles may be better suited for homes that are located in areas that are more susceptible to humidity issues. Vacation homes should maintain climate control when not in use. In an uncontrolled environment, wood is a dimensionally unstable material.

NOTE : Koch and Company's warranty is written with the expectation that cabinets will be stored and installed in a climate controlled environment. Warranty will be voided if cabinets are stored or installed in buildings with extreme temperatures or humidity levels.

We want customers to enjoy their cabinets and working with them to avoid extreme levels of humidity will keep cabinets looking beautiful for many years.





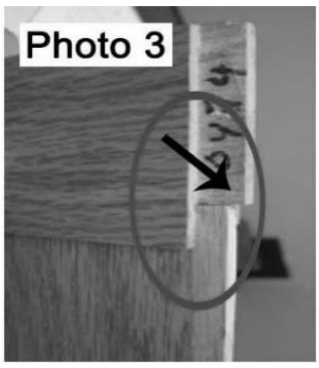


Photo 1: Shows that the stile cracked due to panel movement in the door.

Photo 2: Shows that the panel had expanded in width about 3/16" due to high humidity in the room the cabinet was installed in.

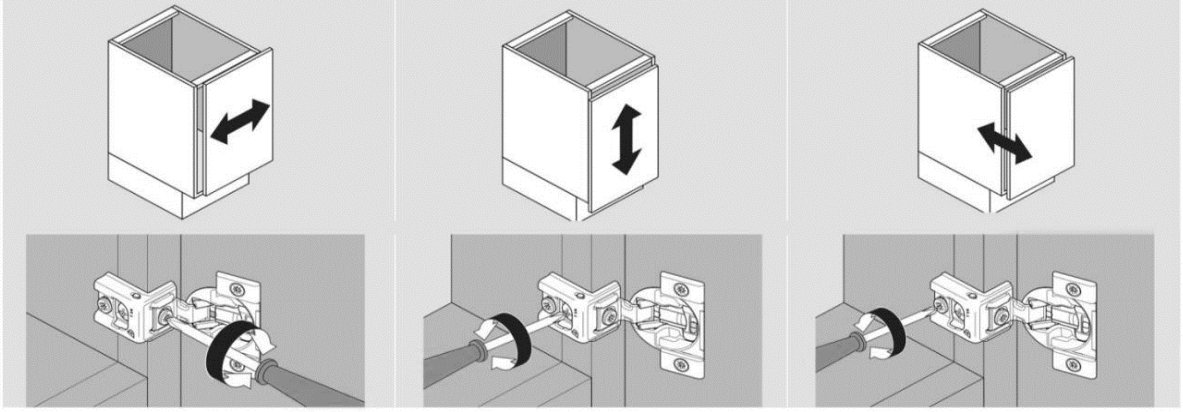
Photo 3: Shows that the panel lip contracted about 3/16", to the correct size, after the humidity was regulated to the proper level.

HARDWARE INSTRUCTIONS

DOOR ADJUSTMENT DIRECTIONS FOR BLUMOTION HINGE

Three-dimensional adjustment

Side adjustment	Height adjustment	Depth adjustment
Rotate the front cam screw to increase or decrease door overlay (+/- 1/16").	Loosen installation screws to adjust door position (+/- 1/8"), then retighten.	Rotate the rear cam screw to adjust door gap (+ 3/32", - 1/32").

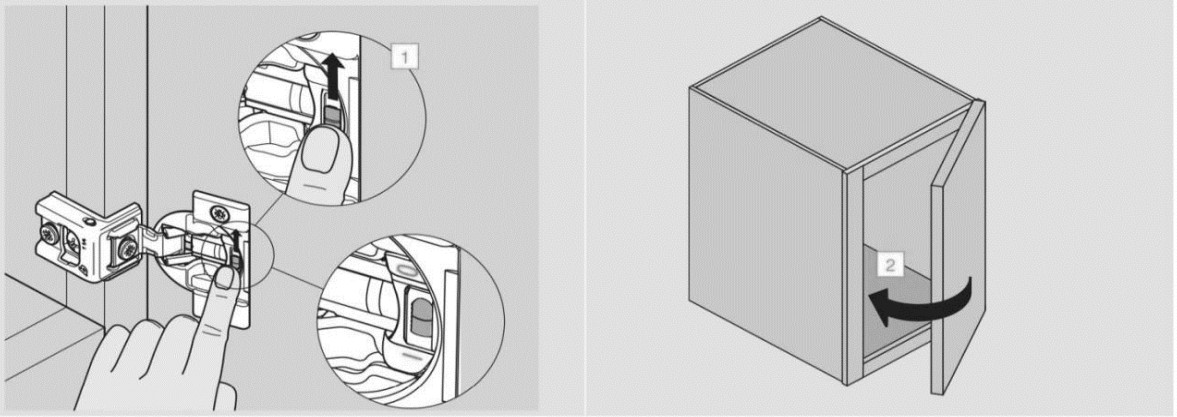


BLUMOTION DEACTIVATION

Switch on the hinge cup

For small or light doors, the BLUMOTION can be deactivated on one of the hinges. COMPACT BLUMOTION comes in the activated position, marked with a "I". The deactivated position is marked with a "0".

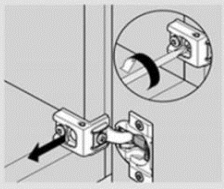
Door must be closed once for the deactivation to be complete. To reactivate, move switch back to the original position "I".



COMPACT BLUMOTION ANGLE RESTRICION CLIP - ASSEMBLY INSTRUCTIONS

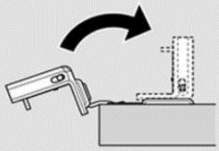
Step 1 — Remove door

Loosen and remove installation screws.



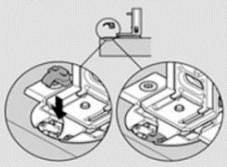
Step 2 — Rotate hinge arm

Rotate hinge arm to closed position.



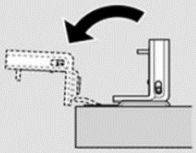
Step 3 — Insert angle restriction clip

Insert angle restriction clip (38C315B3) into base of hinge arm and secure.



Step 4 — Rotate hinge arm

Rotate hinge arm to open position.



Step 5 — Reattach door

Align door and reattach by inserting and tightening installation screws.

SPECIALTY FINISHES

PENCIL GLAZING

Pencil Glazing is achieved by using a flow pen instrument to apply glaze to the detail in profiled areas. It is hand applied by our craftsmen, to give depth and highlight the moldings used.

The amount of highlights to the natural variation of the wood will depend on the door style and wood species.

Since glazing is hand applied, each door will have its own personality which adds a more unique, one of a kind addition to your home. Pencil glazing is applied before the door is stained.

ACCENT GLAZING

Accent glazing is a unique finish to cabinetry that adds a beautifully artistic touch. Hand applied by our craftsmen, to give depth and accentuate the molding used to create an antique appearance.

The amount of accent to the natural variation of the wood will depend on the door style, construction wood species, and glaze color. Fine grained woods such as Maple, Cherry, and Birch will have a delicate effect.

The more decorative the molding, the more defined it will be as the glazing will “hang-up” in the recesses of the molding.

Since glazing is hand applied, each door will have its own personality which adds a more unique, one of a kind addition to your home.

HIGHLIGHTS

Highlights are only available on painted cabinets and is applied to the painted door before the topcoat of varnish.

Highlights are hand applied, each door will have its own personality which adds a more unique, one of a kind addition to your home.

DISTRESSING

Cracks, dents, nicks, and wormholes give the appearance of aged wood.

RUB THROUGH

Koch Rub Thru finish is done by hand in our factory. There is no consistency to where the rub thru is going to be on your cabinet doors and drawer fronts. Rub Thru technique will vary from piece to piece in your cabinets.This variation will not be considered a defect and will not be reason for replacement. Rub Thru will expose natural wood color and will be random in stiles, rails, and in raised panels.

SPECIALTY FINISHES

DYE STAINS

Chestnut, Frontier, and Mocha are dye stains. Cabinets receive a coat of dye, a coat of stain, one coat of conversion varnish as a sealer, and one topcoat of conversion varnish. This stain choice is prone to color variations, resulting in light and dark sections in the cabinetry. Marquis Cabinets uses hand wiping stains that bring out the natural characteristic of wood, which will vary depending on the species. This variation is a feature of Stone stain and will not be a reason for replacement.

WIPING STAINS

Almond, Briarwood, Brown Sepia, Driftwood, Pecan, Russet, Sienna, Sand, Stone and Wheat are wiping stains. Cabinets receive a coat of stain, one coat of conversion varnish as a sealer, and one topcoat of conversion varnish. Driftwood, and Stone stains are prone to color variations, resulting in light and dark sections in the cabinetry. Marquis Cabinets uses hand wiping stains that bring out the natural characteristic of wood, which will vary depending on the species. This variation is a feature of Stone and Driftwood stain and will not be a reason for replacement.

SPRAY NO WIPE STAINS

Cashew, Hazel, Nutmeg, Pebble and Rye are spray no wipe stains. Cabinets receive a coat of non wiping stain, one coat of self sealing conversion varnish, and a top coat of conversion varnish.

ANTIQUE STAINS

Capri Drift, Dusk Drift, Fog Drift, and White Drift are Antique stains. The Antique stain finish is a paint and stain combination that will give you a weathered appearance. The stain is applied over paint then wiped off by hand, creating lighter and darker areas on the door. The stain technique will give each cabinet its own unique look, with no two doors being the same. This stain is prone to color variations, resulting in light and dark sections in the cabinetry. Marquis Cabinets uses hand wiping stains that bring out the natural characteristic of wood, which will vary depending on the species. This variation is a feature of Antique stain is not considered a defect and will not be reason for replacement.

PAINTS

On wood products, movement is typical due to changes in the climate conditions. This will cause the hairline cracks at the stiles, rails, and joints that you will see in a painted finish. Panel shrinkage may also occur in the door panel of your cabinetry. Over time there may be a slight color change in this finish due to exposure to natural and artificial light. The color black also brings out the natural flaws in the wood that is hidden by other colors. These items listed above are natural occurrences in the wood and will not be considered a defect or reason for replacement by Marquis Cabinets.

FINISHING PROCESS

1. Doors and drawer fronts are sanded through a wide belt sander followed by an orbital sander.
2. Next, hand sanded and inspected.
3. Then, are run through a brush sander for dust removal and denibbing to prepare for staining.
4. Stain is applied to both sides.
5. Doors and fronts have a seal coat applied and are oven cured one side at a time with a self-sealing conversion varnish.
6. Then, are hand seal sanded and brushed clean of sealer dust.
7. Finally, have a top coat of conversion varnish applied and are oven cured one side at a time.

NOTES OR ADDITIONS

NOTES OR ADDITIONS

NOTES OR ADDITIONS

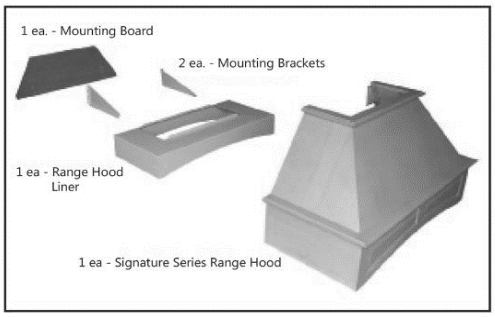
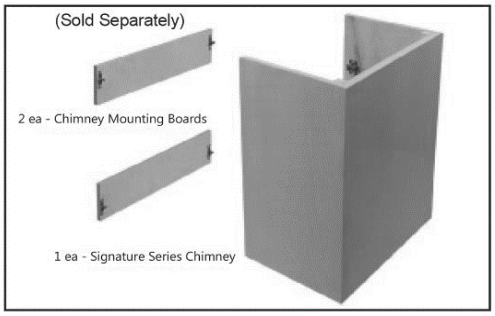
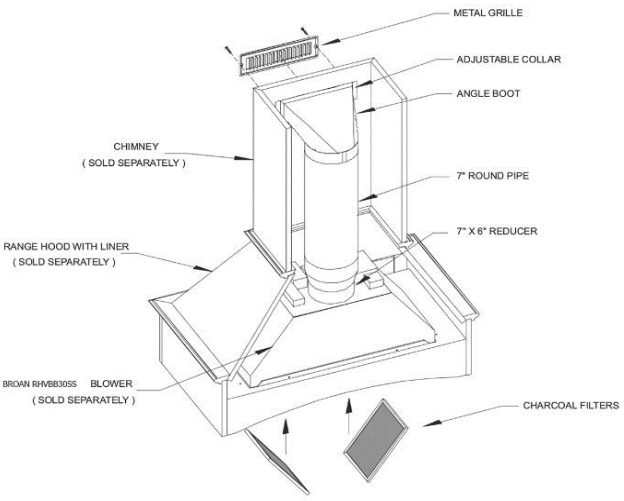
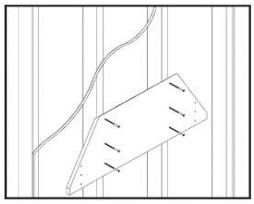
Hood Installation



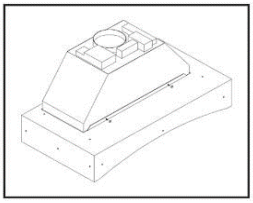




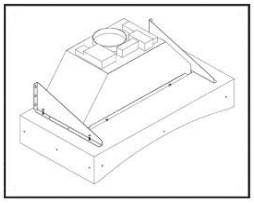
EASY TO INSTALL



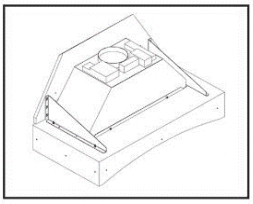
Step 1:
Screw mounting plate to wall



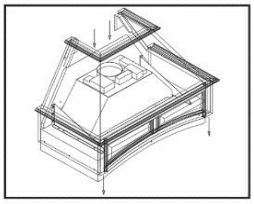
Step 2:
Assemble blower unit (sold separately) to metal liner



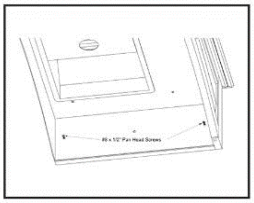
Step 3:
Fasten metal mounting brackets to liner



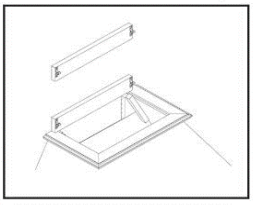
Step 4:
Hang the liner/bracket assembly on the mounting plate (make all electrical and ventilation connections at this point)



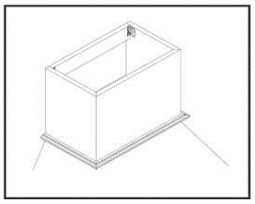
Step 5:
Slip the wood range hood on top of the mounting plate



Step 6:
Fasten wood range hood to liner with (4) screws



Step 7:
If using a chimney (sold separately) mount blocks to wall



Step 8:
Snap chimney in place

Made in AMERICA

ACCESSORIES

VALANCES - FINISHED ON BOTH SIDES

STRAIGHT VALANCE	**STVAL36**	36 1/4" STRAIGHT VALANCE	183	EA
	STVAL42	42 1/4" STRAIGHT VALANCE	213	EA
	STVAL48	48 1/4" STRAIGHT VALANCE (CANNOT BE INCREASE TO 12" TALL)	246	EA
	STVAL54	54 1/4" STRAIGHT VALANCE (CANNOT BE INCREASE TO 12" TALL)	276	EA
	STVAL60	60 1/4" STRAIGHT VALANCE (CANNOT BE INCREASE TO 12" TALL)	306	EA
	STVAL72	72 1/4" STRAIGHT VALANCE (CANNOT BE INCREASE TO 12" TALL)	366	EA
	VALMODH	**MOD TO INCREASE HEIGHT OF VALANCE UP TO 12" TALL**	405	EA
	VALMODWD	**MOD TO DECREASE WIDTH OF VALANCE**	225	EA
6" TALL				
		WILL HAVE SAME EDGE PROFILE ON		
		BOTTOM AS CABINET DOORS		
COUNTRY VALANCE	**CVAL36**	36 1/4" COUNTRY VALANCE - 3" TRIM ON EACH SIDE	606	EA
	CVAL42	42 1/4" COUNTRY VALANCE - 3" TRIM ON EACH SIDE	618	EA
	CVAL48	48 1/4" COUNTRY VALANCE - 3" TRIM ON EACH SIDE	705	EA
	CVAL54	54 1/4" COUNTRY VALANCE - 3" TRIM ON EACH SIDE	795	EA
	CVAL60	60 1/4" COUNTRY VALANCE - 3" TRIM ON EACH SIDE	843	EA
	CVAL72	72 1/4" COUNTRY VALANCE - 3" TRIM ON EACH SIDE	921	EA
6" TALL				
		WITH COVE EDGE BOTTOM - N/A LESS THAN 4" TALL		
ARCH MEASUREMENT DOES NOT CHANGE	**VALMODH**	**MOD TO INCREASE HEIGHT OF VALANCE UP T0 12" TALL**	405	EA
WHEN THERE IS HEIGHT INCREASE	**VALMODWD**	**MOD TO DECREASE WIDTH OF VALANCE**	225	EA
WINDOW VALANCE	**WVAL36**	36 1/4" WINDOW VALANCE - 3" TRIM ON EACH SIDE	750	EA
	WVAL42	42 1/4" WINDOW VALANCE - 3" TRIM ON EACH SIDE	750	EA
	WVAL48	48 1/4" WINDOW VALANCE - 3" TRIM ON EACH SIDE	900	EA
	WVAL54	54 1/4" WINDOW VALANCE - 3" TRIM ON EACH SIDE	1050	EA
	WVAL60	60 1/4" WINDOW VALANCE - 3" TRIM ON EACH SIDE	1125	EA
	WVAL72	72 1/4" WINDOW VALANCE - 3" TRIM ON EACH SIDE	1200	EA
8" TALL				
		WITH COVE EDGE BOTTOM - N/A LESS THAN 8" TALL		
CUSTOM SIZES AVAILABLE				
ARCH MEASUREMENT DOES NOT CHANGE	**VALMODH**	**MOD TO INCREASE HEIGHT OF VALANCE UP T0 12" TALL**	405	EA
WHEN THERE IS HEIGHT INCREASE	**VALMODWD**	**MOD TO DECREASE WIDTH OF VALANCE**	225	EA
ARCHED VALANCE	**AVAL36**	36 1/4" ARCHED VALANCE - 3" TRIM ON EACH SIDE	459	EA
	AVAL42	42 1/4" ARCHED VALANCE - 3" TRIM ON EACH SIDE	486	EA
	AVAL48	48 1/4" ARCHED VALANCE - 3" TRIM ON EACH SIDE	510	EA
	AVAL54	54 1/4" ARCHED VALANCE - 3" TRIM ON EACH SIDE	537	EA
	AVAL60	60 1/4" ARCHED VALANCE - 3" TRIM ON EACH SIDE	561	EA
	AVAL72	72 1/4" ARCHED VALANCE - 3" TRIM ON EACH SIDE	639	EA
		N/A LESS THAN 6" TALL		
ARCHES UP 2 3/4"				
6" TALL	**VALMODH**	**MOD TO INCREASE HEIGHT OF VALANCE UP TO 12"**	405	EA
	VALMODWD	**MOD TO DECREASE WIDTH OF VALANCE**	225	EA
		STANDARD EDGE WILL BE A 3/8" ROUND OVER EDGE		
CUSTOM SIZES AVAILABLE				
	AVALEDGE- 4348	ARCHED VALANCE WITH A 4348 EDGE	300	EA
ARCH MEASUREMENT DOES NOT CHANGE	**AVALEDGE-SHKR**	ARCHED VALANCE WITH A SHAKER EDGE	300	EA
WHEN THERE IS HEIGHT INCREASE				
ARCHED VALANCE COMBO	**AVALCOMBO36**	36 1/4" ARCHED VALANCE & ONE 50" LONG STRAIGHT VALANCE	729	EA
	AVALCOMBO42	42 1/4" ARCHED VALANCE & ONE 50" LONG STRAIGHT VALANCE	756	EA
	AVALCOMBO48	48 1/4" ARCHED VALANCE & ONE 50" LONG STRAIGHT VALANCE	780	EA
	AVALCOMBO54	54 1/4" ARCHED VALANCE & ONE 50" LONG STRAIGHT VALANCE	807	EA
	AVALCOMBO60	60 1/4" ARCHED VALANCE & ONE 50" LONG STRAIGHT VALANCE	831	EA
	AVALCOMBO72	72 1/4" ARCHED VALANCE & ONE 50" LONG STRAIGHT VALANCE	909	EA
ARCHES UP 2 3/4"				
6" TALL				
3" TRIM ON EACH SIDE		**VALANCES WILL HAVE A CR2 EDGE (SPECIAL 3/8" ROUND OVER EDGE)**		
	VALCOMBOMODH	**MOD TO INCREASE HEIGHT OF VALANCE UP TO 12"**	600	EA
	VALCOMBOMODWD	**MOD TO DECREASE WIDTH OF VALANCE**	225	EA
		ARCH MEASUREMENT DOES NOT CHANGE		
6" TALL		WHEN THERE IS HEIGHT INCREASE
